

Exhibit 106

Redacted Public Version

These shoes are falling apart. The perforations aren't perforated completely, stitches are coming loose, fabric seams coming loose, styrofoam hanging out everywhere that's not even cut cleanly. The air Jordan symbol looks like it was stamped on the way you would stamp a design on a t shirt.

These are the most fake shoes I've ever seen. I wouldn't pay \$5 for them. They are very clearly fake shoes. You can see it in the pictures I sent.

Hello Michael,

A lot of Jordans and shoes, in general, have tape on the stitches to ensure that the stitches do not become loose. Please check both shoes and locate the size tag. Again, this photo is needed for our team to review.

If you have any questions or concerns, please don't hesitate to reach back out to us. We'd be happy to assist you further. As always, thank you for being part of the StockX family and for your continuous support. I hope you and your loved ones continue to stay healthy and safe. I look forward to hearing from you soon!

Best Regards,

Anie

Is that a picture of the same type of shoe? It also looks fake/knock off/not authentic with the taped down strings.

There is no size tag on the tongue of the shoes or underneath the insole.

Hello Michael,

The size tag may be hiding underneath the insoles. Please check there to see if the size tag was tucked underneath the insoles.

These shoes are absolutely knock off, fake, not authentic Nikes.
